Providing Services

Civil Engineering:

We offer developed technologies for various types of civil works, especially for pneumatic caisson, shield tunneling, port construction etc. As general contractor we are providing good performance to any kinds of civil works construction.

Building Works:

We offer various types of building works, such as offices, schools, condominiums, factories.

Overseas:

We have over 50-year experience of construction outside of Japan. We had experience in Taiwan, south-east Asia, south Asia, Middle east, Oceania and Africa. Currently we are doing business in Taiwan, Thailand, Cambodia, and Madagascar. Especially at Madagascar we have performed many construction projects for over 45 years.

Corporate Policy and Integrated Management System

1. Daiho declares to be a truly reliable firm for all stakeholders through achieving innovative works.
2. Strict compliance with regulations & agreement with a customer.
3. Continual improvement efforts for effective management system.
